The screenshot shows the NCBI Entrez Protein search results page for the query "NMB1506". The browser window is titled "Entrez-Protein - Microsoft Internet Explorer". The address bar shows the URL "http://www.ncbi.nlm.nih.gov/entrez/query.fcgi?cmd=Protein". The search results are displayed in a table with four entries, each showing the protein name, description, and accession number. The table is titled "Search Protein" and "for NMB1506". The search results are displayed in a table with four entries, each showing the protein name, description, and accession number. The table is titled "Search Protein" and "for NMB1506".

Display	Summary	Save	Text	Clip	Add
Summary	20	Items 1-4 of 4	One page
